

6-7 July 2024

Venue

INESC TEC – Porto, Portugal

Objectives

The IAMOT 2024 PhD Colloquium aims to:

- Encourage constructive discussion with PhD students from institutions worldwide.
- Promote a debate focused on the contribution of the research carried out by PhD students, including research topics, the development of research proposals and the conduct of research.
- Stimulate networking between young researchers and between young and senior researchers to promote collaboration and knowledge exchange.
- Bringing young and talented researchers closer to the IAMOT community.

Target audience

We encourage talented young researchers to apply:

- From institutions around the world.
- That have a well-defined research plan (preferably approved by the institution).
- That work on a topic aligned with the conference theme and topics.

Proposal guidelines

- Proposals should fit the IAMOT Conference 2024 Theme and Topics (iamot2024.com).
- Proposals are not papers and should clearly state the research problem, the methodological approach (planned or in execution), and the expected outputs and contributions to the field of study.
- Proposals should be written in English and developed in the provided template ([template](#)).
- Length: from 6-8 pages - including mini bio, abstract and references.
- File Format: PDF

How to apply

- Send the proposal to the email: iamot2024@inesctec.pt with the subject “PhD Colloquium Proposal”

Selection criteria

- Fit within conference theme and topics
- Quality of research problem
- Theoretical and methodological rigor
- Contribution to the field of study
- Writing quality
- Compliance with the proposal guidelines

Important dates

- Proposals submission deadline – **15 February**
- Decision notification – **31 March**
- PhD Colloquium – **6-7 July**

Fees

- Fee
 - 330 Euros (including the participation in the main conference)
 - The best proposals will be granted free registration
